# PRODUCT RANGE

Exporting Across the Globe.

Our core product portfolio is centered around three carefully selected, nutrient-rich millet flours that meet the growing global demand for gluten-free, clean-label, and health-oriented food ingredients. Each product is processed with strict quality controls to preserve its natural nutritional value, functional performance, and suitability for international food applications.

Shatapathram Exports focuses on supplying millet flours that are versatile, export-compliant, and adaptable across retail, foodservice, and industrial food manufacturing segments.

## Our Key Products

### Ragi (Finger Millet) Flour

A calcium-rich, fiber-dense millet flour widely used in health foods, traditional recipes, and functional food formulations.

### Sorghum (Jowar) Flour

A naturally gluten-free flour with a mild, neutral taste, ideal for gluten-free baking, multigrain blends, and modern food applications.

### Bajra (Pearl Millet) Flour

A nutrient-dense ancient grain flour valued for its high energy and fiber content, commonly used in flatbreads, health mixes, and wholesome food.

## Certifications

QUALITY & COMPLIANCE STANDARDS

Shatapathram Exports follows internationally recognized food safety and quality standards to ensure consistent, safe, and compliant products for global markets:

Gluten-Free – Ensuring gluten levels below 20 ppm

FSSC 22000  
Meeting global food safety standards

Organic Options  
Providing authentic organic product choices

Non-GMO  
Guaranteeing non-GMO product integrity

# RAGI FLOUR

*Ragi Flour (Finger Millet)*  
*Eleusine coracana*

## Summary

Ragi flour is a nutrient-dense millet flour known for its high calcium and fiber content, making it ideal for health-focused food applications.

- Naturally gluten-free (<20 ppm)
- Non-GMO
- FSSC 22000 Certified Facility

## Key Information

### Nutritional info (Per 100g)

Energy	334Kcal
Carbohydrates	72g
Fibre	11.5g
Protein	7g
Fat	1.5g
Calcium	344mg

## Physical Characteristics

- Appearance: Fine milled flour
- Color: Reddish brown to dark brown
- Texture: Smooth, free-flowing
- Particle Size: 80–120 mesh
- Moisture Content: ≤ 11%
- Foreign Matter: Nil

## Microbiological Standards

- Total Plate Count <100,000 cfu/g
- Yeast & Mold <1,000 cfu/g
- E.coli and Salmonella: Absent

## Shelf Life

6–9 months under recommended storage conditions

# SORGHUM FLOUR

*Sorghum Flour (Jowar)*

*Sorghum bicolor (L.) Moench.*

## Summary

Sorghum flour is a naturally gluten-free ingredient with a mild, neutral taste, suitable for a wide range of food formulations.

- Naturally gluten-free (<20 ppm)
- Non-GMO
- FSSC 22000 Certified Facility

## Key Information

 <b>Nutritional info</b> (Per 100g)	
Energy	329Kcal
Carbohydrates	72.1g
Fibre	6.7g
Protein	10.6g
Fat	1.5g
Iron	4.1mg

## Physical Characteristics
